

## 2.5 Evaluation Process and Reforms

### 2.5.1 Mechanism of internal assessment is transparent and robust in terms of frequency and mode:

#### Response:

Evaluation is the most important part of the teaching-learning process. IQAC of the college discuss with the heads of the departments and the examination committee to frame the internal evaluation system. The college examination committee prepare the internal examination time table by taking into account of the university examinations schedule. The timetable is communicated in advance to the students.

A continuous Internal Evaluation system is used for the internal assessment of the students. The examination committee displays the notices on the college notice boards. The information is also communicated on the What's app groups of the classes and the departments. The examination committee monitors and conducts internal examinations in the college. All the teachers submit the question papers with model answers to the examination committee. The department organizes unit tests, surprise tests, oral test etc. A open day is kept for the students to clarify their doubts regarding the question paper and answer book and clarify the issues at their satisfaction. The answer books are shown on the demand of the students and guided them for their better performance in the forthcoming examinations. The best answers by the students are shown to the other students for the improvement. Also teachers guide the students for best possible answer to a particular question. Continuous Internal Evaluation is made by the question-answer method. The principal of the college surveys the internal evaluation in the departmental meetings. The principal gives suggestions to the concerned teachers. Due to this process, the students come to know about their strengths and their progress in their studies. The concerned teachers guide them to overcome their problems.

Regular attendance at the practical and theory lectures of the students are also assessed by keeping record on attendance sheet. 75 % attendance at theory as well as practical is compulsory for the students to appear for the final examination. IQAC prepares academic calendar at the beginning of academic year and monitors its effective implementation. The effect of all these efforts through internal exam was impressive. We found a better and improved results at semester end examination.
